## Education

---

The University of Georgia, Athens, Georgia  
Bachelor of Fine Arts in Graphic Design, 2007

## Employment

---

### *MailChimp (The Rocket Science Group)*

December 2009 - present, Atlanta, Georgia

In December I returned home to Atlanta and began working for the Rocket Science Group as a web designer for their main product, MailChimp. I work very closely with my design team and marketing department to concept and design new websites and landing pages that promote MailChimp. My responsibilities include conceiving ideas, design, and programming.

### *Plexus Web Creations*

May 2007 - December 2009, Athens, Georgia

I started working for Plexus as an intern. When I began, I had very little knowledge of web design and programming. After completing my internship, I was hired as a full-time designer and front-end programmer. During my two and a half years at Plexus, I developed a strong skill set in web design, XHTML, CSS, and jQuery. I also created identity and print design.

## Freelance Experience

---

As a freelancer, I have worked directly with clients through the entire design and build process. Included are:

*Castalia Communications*  
*Birmingham United Methodist Church \**  
*Winder-Barrow Community Theatre*

\* Project completed with Pure Web Development

## Mad Skills

---

### *Adobe Creative Suite*

I'm a Harlem Globetrotter in Photoshop, Illustrator and InDesign.

### *XHTML and CSS*

I have supreme knowledge in coding with web standards.

### *Javascript (jQuery)*

I belong to the church of jQuery.
